PERU POLICE DEPARTMENT VOLUNTARY WITNESS STATEMENT

Date:
Time:

Case #

On Thursday I was meeting up with my friend Julia Eichmeyer, this was around 3:00 pm. I remember she was telling me on the phone that she dropped off Madeline with her father either at 2:30 pm or right before I arrived there. Anyway when she picked up Madeline we headed over to her place, she then changed Madeline's diaper and noticed unusual and physical changes in the vaginal area of Madeline. Now I was aware by Julia that she had diaper rash, but the look she had when Julia changed her after receiving Madeline from the father was much different, as in the vaginal area. So we brought Madeline to the emergency room to get it checked out and the doctor tells us it's just a diaper rash, he said it looks a little more swollen but it's still just a diaper rash. This isn't the first time Madeline has come home from her father's house to Julia's house with some red marks, or physical damage and suspicions. Julia has filed reports before, I've been there too to witness the looks and actions of Madeline Eichmeyer. I have seen Madeline make traumatizing looks on her face from coming back to Julia's from her father's house. I myself don't trust that man I care about Julia and Madeline, he is very selfish and immature, he is Kevin Kramer. I've seen Madeline reach down Julia's pants and her own it's a little disturbing and I'm very concerned as a friend. Julia is a great mother and for her to experience this on O'Leary, non sense and ball shit. She doesn't deserve it and her mother does. Like I said it's happened numerous times I am a witness this needs to stop she needs and deserves full custody of that child...→

I have read the above statement consisting of 2 pages and attest that it is a true and accurate account of the events which took place on or about _____. It was given to me voluntarily, without any fear of threat of promise of reward.

Adrian Perez- is a great friend of mine and witness to my daughter's abuse traits filled out a Peru P.D. Police report after seeing Madeline return from fathers to me with apparent signs of abuse and trauma. He tried to hand it in to the Peru Police but they wouldn't accept it because it was written in pencil, not pen. He decided not to rewrite it as he thought they should have accepted the one he already spend time on. This could be Peru P/D being difficult or not as with the bias with the other family. Either way this is a liable collateral contact/ witness testimony. Adrian's expressed since the fact of him filling out this sheet that he wishes to remain anonymous due to similar friends between him and M.K's father. If subpoenaed I am sure he would agree or if Perhaps we can take his testimony separately or privately aside from court so he doesn't have to see the father face to face, that might work.

Since he wrote the original in pencil, I took the time to type the police report just in case the pencil was too light to see.

On Thursday I was meeting up with my friend Julia Eickmeier, this was around 5:00 pm. I remember she was telling me on the phone that she dropped off Madeline with her father either at 2:30pm or right before I arrived there. Anyway when she picked up Madeline we headed back to her place, she then changed Madeline's diaper and noticed a visual and physical change in the vaginal area of Madeline. Now I was aware by Julia that she had diaper rash, but the look she had when Julia changed her after receiving Madeline from the father was much different as in the vaginal area. So, we brought Madeline to the emergency room to get it checked out and the doctor tells us it's just a diaper rash, he said it looks a little more swollen but it's still just a diaper rash. Initial Report

Officer P20 PAUL, JEFFREY M.

Date 10/23/2014

On 10-23-14, I (Ofc. Paul) was dispatched to the IVCH ER for report of a possible child abuse/assault.

Upon arrival, I spoke with ER Nurse Ashley Freitag who related that a woman, later identified as Julia Eickmeier, brought her one year old daughter Madeline Kramer in for an exam. Eickmeier said that she suspected possible sexual abuse/assault by the father Kevin Kramer. Freitag said she and Dr. Sergey Golber examined Madeline and believe that she had a diaper rash but there were no signs of any abuse or assault. Due to the allegations, Freitag contacted police. Freitag also reported the incident to DCFS. They advised her that the incident would be documented but no investigation would be completed due to the medical professionals exam results.

I then spoke with Eickmeier and her boyfriend Adrian Perez. They related that since the time Madeline was seven months old until now that she is twenty one months old, they have noticed behavior changes along with physical signs of possible abuse. Eickmeier described the behavior as almost a sexual fetish. She said after visitation with Kramer, Madeline would cross her legs, pull on her diaper, grab her vaginal area and cry when having her diaper changed. Madeline has also put her hands down Eickmeier's pants and grabbed her genital area as well. She described the physical signs as severe darkening redness and swelling around the vaginal area. Eickmeier said she has made approximately fifteen to twenty reports of this in the past to various hospitals, police agencies and DCFS. She was told that the incidents would be documented but no investigation would be completed without confirmation from a health care provider. She said none of the doctors have been willing to testify that there were signs of abuse. Eickmeier has asked Kramer about the incidents and he replies that he doesn't know what she is taking about. Kramer then becomes upset about her questioning him. Eickmeier has talked to Kramer about proper care and diaper changing but does not believe this is causing the irritation. Eickmeier said she has documented the times when Madeline has

Case Report

irritation in her genital area and it is not consistent with normal diaper changing. She said she has never observed this type of irritation any time other than when Madeline has visited Kramer.

I requested Eickmeier and Perez to complete written statements of the incidents.

I then spoke with Dr. Golber who related that he has seen many cases of abuse/assault. He said in this case he believes the irritation is due to diaper rash and sees no signs of any assault. Golber said he can not rule out the possibility that Madeline was assaulted however there is no evidence to indicate it at this time.

I contacted Kramer and advised him of the report. I requested that he come to the station for an interview to which he agreed. Kramer said he would be glad to cooperate but this was becoming ridiculous. He said Eickmeier has reported this abuse several times with no basis. He said he has never abused his daughter.

Later in the shift Kramer arrived at the station. We entered the interview room and I advised him of his Miranda Warnings. I advised that the interview would be audio and video recorded. Kramer initialed and signed the waiver form before agreeing to speak with me. I explained the concerns of Eickmeier and the examination. Kramer said he had custody of Madeline from 12:00 to 17:00 today. She had the diaper rash at the time he got her. Kramer did not have any cream for the rash and changed her three times throughout the day. He thought everything appeared normal other than the rash. He said the rash was much more than normal and covered a larger area. Normally the rash is smaller and only on Madeline's rear. This is a regular occurrence about once a month. Kramer said he and Eickmeier are the only ones that watch Madeline on a regular basis. Kramer's parents used to watch Madeline until Eickmeier accused his mother of wiping her too hard when changing her diaper. They talked about the rash today when he picked her up. Eickmeier said she had been putting cream on it but it did not appear there was any on her at the time nor did Eickmeier put any on while she changed her. Kramer said he was concerned for Eickmeier's mental health as she continues to make these allegations against him. She has gone to the Princeton Hospital and the Peoria Hospital in the past with the same claims of abuse. Eickmeier tells him that she believes when children grab their diaper or squeeze it together between their legs it is to stimulate themselves sexually. He believes that this is due to irritation or just part of her normal development and is not in any way sexual. DCFS has contacted Kramer previously regarding this issue and has determined the claims to be unfounded. Kramer said he was very stressed about the continual accusations and subsequent questioning by various agencies. He wants to have a normal relationship with his daughter but Eickmeier is making it extremely difficult. He said he feels that he is being harassed by her actions.

I explained that this incident would be documented and DCFS would be advised. I suggested that Kramer continue providing care with his daughter's best interest in mind.

I contacted DCFS Caseworker Jake Walters and advised him of this incident. Walters said this would be documented with no investigation due to lack of medical indications of abuse. The intake report number was
